

Ryan's Amazing Tattoo Art Project of Awesomeness

By The Amazingly Awesome Artist Ryan

Microphone Tattoo

The first tattoo I decided to do was a tattoo that

represented my passion for the performing arts. In the picture it is unclear, but I have written “sing” around the bicep of the arm. This tattoo shows the involvement of self expression in the persons live as an artist.

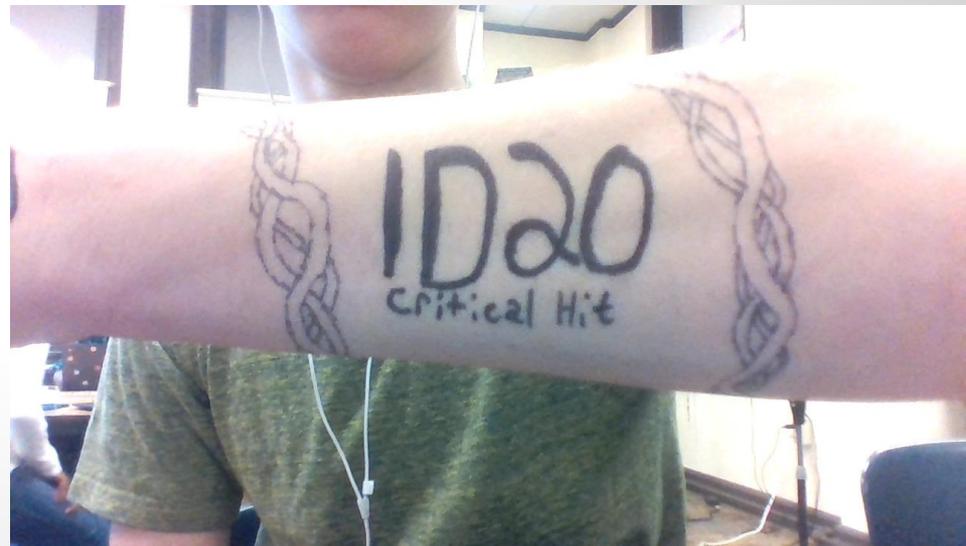

Music Tattoos

On my hand I decided to do a tattoo that captured the passion of music. Music, in not only the performing idea of it, but for the love of sound and meaning behind the lyrics.

Nerd Tattoos

I decided to do two tattoos that are based on a popular table-top game called D&D. I wanted to do these tattoos, because I thought it was important to do a tattoo that represented the nerdy aspects of entertainment. For a long time, nerds were looked down on and bullied, I think it is important that that type of thing doesn't happen anymore.

Superman Tattoo

I wanted to do some type of superhero tattoo. I have

always been into comic books and I really wanted do a tattoo that represented the breaking out of superheroes and comics that started in the 40s.

THANK YOU FOR LISTENING
