

From Us to You

A presentation by Diamond Hannah & Vernika Barrow

What is this?

“From Us to You” is a youth group designed by young women for young women.

The goal was to establish a relationship between senior females, and freshman females with intentions of providing information and advice for the freshman needed to “survive” the high school experience.

FROM US
to you

Inquiry/Investigation

What we knew:

- We wanted to collaborate with younger students.

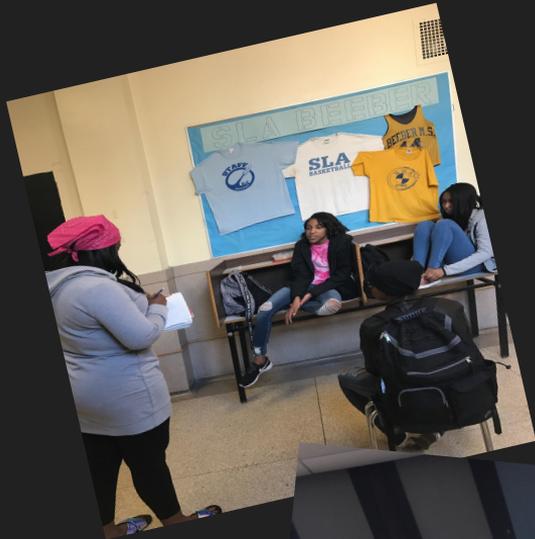

We conducted an SRS where we questioned the 1st 10 freshman females that we came across during their lunch period.

Research

A lot of research was required to answer questions that the freshman had for us.

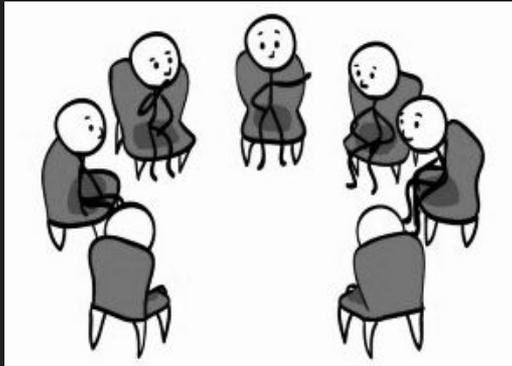

Research was used to find different icebreakers and activities to be able to help the process of building relationships.

Collaboration

Group Sessions

Group sessions were/are essential to the program because it allows all of the emails to gain information from each other and grow together.

One-on-One Sessions

One-on-One sessions were used to allow the girls to speak to us on more personal levels.

Gains?

Reflection

What was learned ?

Expectations ?

Feelings afterwards?
