

# Waste Management PSA

By: Shamar

# Intro

This is my PSA about Waste Management. My PSA will talk about how bad waste management is hurting the environment and solutions for bad waste management.

**Today you will be able to answer my 3 assessment questions after you watch my video**

## Assessment Questions about my video

- How many pounds of trash does the United States produce per day?
- What does **Biodegradable** mean?
- What are three ways to improve waste management?
